

Hello and welcome to Slidesho's November 2010 newsletter! We understand that everyone is very busy these days so we promise to keep this newsletter brief and to the point, hopefully sharing with you information you'll be able to incorporate into your next presentation.

The team at Slidesho

WHAT'S NEW at Slidesho

Prezi presentations

Prezi is a great new online tool that creates dynamic presentations unlike anything we've seen before. If you are looking to impress your audience and get away from the usual PowerPoint and Keynote slides then Prezi might be just the answer! Check out www.prezi.com or contact us for more information about how we can create a Prezi for your next event.

Customised tool bar (VBA coding)

These are buttons that sit within your current PowerPoint menu ribbon. They are specifically designed for you and automate all those tricky formatting jobs - saving you time and ensuring consistency. If you would like to view a demonstration please contact us and we will email a brief demo to you.

Language translation for PowerPoint presentations

We now offer a language translation service for PowerPoint presentations. We work with a panel of experienced professionals all accredited by NAATI (National Accreditation Authority for Translators and Interpreters). For more information please contact us.

TIPS

Did you know...

Our team of experts not only assists with the production of templates and documents for Microsoft Office PowerPoint but also for Word and Excel.

Tutorials...

We have been busy posting weekly PowerPoint tutorials on Squidoo - please feel free to browse through and if you have a particular subject area that you'd like us to address, email us and let us know, we'd love to help! www.squidoo.com/lensmasters/Slidesho
